SACRAMENTO, CAL., Dec. 30, 1872.

MESSRS. BAKER & HAMILTON,
No. 17 Front street, San Francisco—Gents:
After a three months trial of your Baxter Engine, we are able to speak knowingly of its merits. It more than realizes our expectations and is beyond doubt the best thing of the kind ever manufactured. Our Engine (a three-horse power) runs a Hoe Single Cylinder and two Gordon Presses with ease, and apparently power enough left to run as many more. It needs no engineer to attend to it, and makes as little noise while in motion as a sewing machine. We run it ten hours per day at an expense of from \$3 to 50 cents per day for fuel. No Printing Office in need of an Engine should be without a Baxter, as it is certainly the "Printer's Engine."

E. M. YERINGTON,

General Superintendent.

Take Warning!

THE V. & T. R. R. COMPANY ARE

anxious to take due precaution against

accidents and loss of life resulting from

running of their trains; and they take this method

of warning Parents and Guardians against

the danger attending the too common practice

of Children playing about their Cars and locomotives. Those having in charge the business of

the Company find it impossible to restrain

boys, who frequent the termini and stopping

places of the road from climbing upon the

cars and engines, and they will feel themselves

obliged to resort to more decided measures if

these annoyances are continued. Recent accidents, which are wholly attributable to the

carelessness of persons jumping on and off the cars when in motion, should be warning enough to

themselves. E. M. YERINGTON,

Superintendent.

THE IMPERIAL

Insurance Co. of London

Somed Business Considerations

why the Imperial should

be preferred

TO ANY OTHER FOREIGN COMPANY:

First—It was established in 1803, and is the

oldest FIRE Insurance Company in the world.

Second—It has a subscribed capital of \$2,000,000, of which \$1,500,000 is paid up. In 1871,

with surplus accumulated assets of \$2,316,075,

making it at once the strongest and richest

Fire Insurance Company in the world.

Third—This company does a Fire Business

Exclusively, and its assets are liable

to be divided for fire or marine losses, and

the same rule applies to other English companies re-

spectively on this point.

Fourth—This company's losses at CHICAGO

were less than one hundred thousand dollars

and have been paid in full, DOLLAR FOR DOLLAR.
